Note 1 – NATURE OF BUSINESS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Business

Donnelly Penman & Partners, Inc. (the "Company") is a closely-held corporation located in Grosse Pointe, Michigan. The Company provides investment banking and financial and investment advisory services to both public and private companies. Services are organized into industry groups, with particular emphasis in manufacturing, financial services, distribution, service and retail. Investment banking services generated approximately 100% and 99% of total revenue in 2017 and 2016, respectively.

Concentration of Credit Risk

The Company deposits cash primarily with a major bank within the United States of America and at times throughout the year may maintain balances that exceeds federally insured limits of \$250,000 per depositor, per insured bank. The Company also maintains an account with a credit union, which is federally insured up to \$250,000, per depositor, per insured credit union. Uninsured deposits totaled approximately \$9,000 and \$13,000 at December 31, 2017 and 2016, respectively. The Company has not experienced any losses in such accounts and management believes the Company is not exposed to any unusual credit risk on cash or cash equivalents.

Cash and Cash Equivalents

The Company considers all highly liquid investments purchased with an initial maturity of three months or less to be cash equivalents.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported revenues and expenses during the reporting year. Accordingly, actual results could differ from those estimates.

Accounts Receivable

The Company extends credit to its customers in the form of accounts receivable in the ordinary course of business and generally requires no collateral. Trade accounts receivable are stated at the amount the Company expects to collect from outstanding balances. The Company provides for probable uncollectible amounts through a charge to earnings and a credit to a valuation allowance based on management's assessment of the current status of individual accounts. Balances that are still outstanding after the Company has attempted reasonable collection efforts are written off through a charge to the valuation allowance and a credit to accounts receivable. The Company recorded an allowance in the amount of \$12,500 as of December 31, 2017. Management did not consider an allowance necessary at December 31, 2016.

Note 1 – NATURE OF BUSINESS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Property and Equipment, Depreciation and Amortization

Property and equipment are recorded at cost. Depreciation and amortization is expensed over the estimated useful lives of the related assets, using the straight-line method. Expenditures for maintenance and repairs are expensed as incurred. Management reviews these assets for impairment when circumstances or events indicate that the carrying value may not be recoverable.

The Company uses the following useful lives for assets placed in service:

Description	Asset Lives
Computer equipment	3 - 5 years
Furniture and fixtures	5 - 7 years
Leasehold improvements	40 years

Revenue Recognition

Revenue is recognized when services have been rendered based on the terms of the signed contract (engagement letter) with the customer. The Company recognizes non-refundable retainers as revenue in the month earned. Consulting fees are recognized in the month that services are performed. Closing and/or transactional fees are recognized upon the successful closing of the particular transaction. Commissions are recognized upon the sale of securities offered when the Company acts as an agent.

Recent Accounting Pronouncement

In May 2014, the Financial Accounting Standards Board ("FASB") issued ASC 606, Revenue from Contracts with Customers, which will supersede nearly all existing revenue recognition guidance under accounting principles generally accepted in the United States. The core principle of this standard is that revenue should be recognized for the amount of consideration expected to be received for promised goods or services transferred to customers. This standard will be effective for the Company for the annual reporting period beginning after December 15, 2017.

The Company has evaluated the new guidance and the adoption is not expected to have a significant impact on the Company's financial statements and a cumulative effect adjustment under the modified retrospective method of adoption will not be necessary.

Income Taxes

The Company, with the consent of its shareholders, has elected to have its income taxed under the provisions of Subchapter S of the Internal Revenue Code Section 1362, which provides that in lieu of corporate income taxes, the shareholders are taxed on the Company's taxable income. Therefore, no provision or liability for federal income tax is reflected in these financial statements. The Company may also be liable for other state and local income taxes in jurisdictions where it has nexus.

Note 1 – NATURE OF BUSINESS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Management has analyzed the Company's material tax positions and has determined that no material uncertain tax positions exist that require recognition or disclosure in the accompanying financial statements. The Company is no longer subject to U.S. federal, state and local examinations by tax authorities for years before 2014.

Note 2 - COMMON STOCK

In 2017, the Company redeemed 1,438 shares of common stock from four non-majority shareholders for approximately \$57,000 in two separate transactions. The Company immediately sold all the shares to four existing non-majority shareholders and one new shareholder for the same amount. In 2016, the Company redeemed 992 shares of common stock from three non-majority shareholders for approximately \$52,000. The Company immediately sold all the shares to four existing non-majority shareholders and one new shareholder for the same amount. In addition, the Company and its shareholders entered into an Amended and Restated Shareholder Agreement (the "Agreement") dated September 1, 2016. Under the Agreement, the Company will purchase a shareholder's common stock at termination of employment of the shareholder. The purchase price will vary based on the reason for termination and will range between 50% and 100% of Book Value, as defined in the Agreement. The purchase price may also be reduced for the shareholder's portion of contractual liabilities, as defined in the Agreement, existing at the time of termination. Company also has the option to reallocate shares annually based on the discretion of the Company's Executive Committee. The purchase price for these shares will be at 100% of Book Value.

Note 3 - QUALIFIED RETIREMENT PLANS

The Company sponsors a profit sharing plan (the "Plan") with a safe-harbor provision for all employees who have attained the age of twenty-one and completed one year of service. Each year the Company may make a profit sharing contribution to the Plan at the discretion of the Board of Directors. Contributions approved by the Board of Directors for 2017 and 2016 totaled approximately \$212,000 and \$222,000, respectively.

Note 4 - RELATED PARTY TRANSACTIONS (INCLUDING COMMITMENTS)

The Company earned approximately \$67,000 in management fees for 2016 from an investment fund that is related by common ownership. There were no fees earned in 2017.

During 2017, the Company loaned a shareholder \$4,582 to purchase stock in the Company. The loan is expected to be repaid during 2018.

Note 4 - RELATED PARTY TRANSACTIONS (INCLUDING COMMITMENTS) (CONTINUED)

The lease calls for monthly rental payments of \$9,442 through December 31, 2020. The Company also pays all the costs of utilities, maintenance and repairs on the leased space. Rental expense for the related party lease was approximately \$114,000 for 2017 and 2016.

Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose. The procedures we performed and our findings are as follows:

- 1) Compared the listed assessment payments in Form SIPC-7 with respective cash disbursement records entries, noting no differences;
- Compared the Total Revenue amounts reported on the Annual Audited Report Form X-17A-5 Part III for the year ended December 31, 2017, with the Total Revenue amounts reported in Form SIPC-7 for the year ended December 31, 2017, noting no differences;
- 3) Compared any adjustments reported in Form SIPC-7 with supporting schedules and working papers, noting no differences;
- Recalculated the arithmetical accuracy of the calculations reflected in Form SIPC-7 and in the related schedules and working papers supporting the adjustments, noting no differences; and
- 5) Compared the amount of any overpayment applied to the current assessment with the Form SIPC-7 on which it was originally computed, noting no differences.

We were not engaged to, and did not conduct an examination or review, the objective of which would be the expression of an opinion or conclusion, respectively, on compliance with the applicable instructions of the Form SIPC-7 for the year ended December 31, 2017. Accordingly, we do not express such an opinion or conclusion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the information and use of the Company and the SIPC and is not intended to be and should not be used by anyone other than these specified parties.
